DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

- Group I, claim(s) 1-37, drawn to a plate making apparatus.
- Group II, claim(s) 38, drawn to a plate making apparatus.
- Group III, claim(s) 39-42, drawn to management methods for a regenerative printing plate.
- Group IV, claim(s) 43-52, drawn to an interstage sleeve.

2. The inventions listed as Groups I-IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Group I is drawn to a plate making apparatus having a plurality of stations and a plurality of processing apparatus corresponding to the steps of the plate making procedure. Group II is drawn to a plate making apparatus having a carrier, chuck apparatus, and a processing apparatus. Group III is drawn to management methods for a regenerative printing plate including steps of applying plate identification info or situational data to the plate and

reading information from the plate. Group IV is drawn to an interstage sleeve applicable to a cylinder and carrying a printing plate on the outer face thereof. None of these groups relate to a single general inventive concept because they do not have any overlapping or corresponding special technical feature.

3. Due to the complexity of this requirement, a telephone call was not made to request an oral election to the above restriction requirement.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to **Leslie J. Evanisko** whose telephone number is **(571) 272-2161**. The examiner can normally be reached on T-F 8:00 am-6:30 pm.
